# OTHER ITEMS

This clothing is not gender specific. Sizes are based on the men's sizing chart. If you are of the male persuasion, order the same size as your jersey. If you are of the female persuasion, it's typically best to order one size down - i.e. large women's jersey, medium wind shell vest. Arm warmers run big - unless you're Ah-nuld, go with one size smaller than your jersey size.

Due to restrictions on the printing of the design, the smallest size we are able to order is a women's small. Unfortunately, there are no children's sizes.

For determining your jersey size, the chest and waist measurements will be the determining factor. For shorts, look for waist and hips. If you're between sizes, round up to the larger size to ensure comfort. To measure chest and hips, measure around the largest circumference. For waist measurements, measure around the smallest circumference.

For women ordering the non-gender specific items, be sure to use the men's sizing chart. Keep in mind that the jackets and vests are cut for men and won't have as much room in the hips as the women's sizes. Typically, one size larger should work.
